WHAT IS A SIP?

A SIP allows you to invest a fixed amount—monthly or quarterly—into a mutual fund. It's like setting your money on autopilot. The longer you stay invested, the more your money multiplies, thanks to compounding.

HOW LONG DOES IT TAKE TO REACH 1CR

Your journey depends on two things:

- **Investment horizon**

STAY DISCIPLINED, STAY INVESTED

SIPs help you average out the market ups and downs, but equity investments do carry risks. Markets may fluctuate in the short term, but if you remain patient and consistent, long-term growth is on your side.

CONCLUSION

Wealth creation is not about **timing the market**—it's about time in the market. SIPs give every investor, whether starting with ₹1,000 or ₹50,000, a fair chance to reach their goals.

✅ Start early
✅ Invest regularly
✅ Stay disciplined

That's the ***blueprint to your ₹1 Crore journey.*** All it takes is the first step today.
