PROPOSAL FOR INVESTMENT
SYSTEMATIC TRANSFER PLAN

(Lumpsum in Debt Fund with transfer of capital appreciation in Equity Fund)

Proposal in Brief

Under this strategy, principal amount is invested in a debt fund. The appreciation part of the investment is transferred automatically to an equity oriented fund at monthly intervals. Over medium to long term, higher expected returns in equity fund enhances the overall return of the total investment. This strategy may be suitable for investors looking to beat FD returns along with reasonable safety of invested amount (since the money is always parked in a debt fund).
